2/18/67

Dear Mike,

Here are the two documents I mentioned last night.

The one on the skull is okay for anytime.

The one on the fragment in C's leg is for Friday p.m., 2/24.

Both are from WHITEWASH III: THE ARCHIVE, now in preparation and about a month late because of my continuing work.

The mysterious paper referred to in WHITEWASH II on page 63 may be fed to AP this afternoon by the Frederick paper. I have the original and I've asked them to make an extra copy I'll mail you when they return it in case AP does not move it. I think, with what is now public about N.O. developments, this is a fascinating bit of real-life James Bond.

Best,
